## What is a Food Chopper?

The buffalo chopper, also referred to as a bowl chopper or food cutter, is a versatile machine designed to chop or emulsify food by rotating it in a shallow bowl under spinning blades. This kitchen equipment ensures even cutting and prevents ingredients from piling up during the chopping process, resulting in consistent results. The buffalo chopper comes with a safety guard that covers the blades during operation, allowing users to lift the cover when the machine is stopped for blade replacement or cleaning purposes.

The above described parts are manufactured and/or supplied by National Band Saw Company as replacement parts for equipment. National Band Saw is not affiliated with any original equipment or parts manufacturers.

## Hobart Model 84145

1. The Hobart 84145-1 food processor has a #12 hub that accepts a variety of attachments. Stainless steel blades come with the unit, cutting product into small, uniform portions for salads, spreads, and other dishes. The 5-pound-capacity, stainless steel bowl has a cover that protects the operator from the sharp knives. When the cover is not in place, the buffalo chopper will not operate. Since the housing on the Hobart 84145-1 food cutter is made of one piece of aluminum, it is strong and does not have crevices that could trap food debris.
2. Food Cutter with #12 attachment hub, 14" diameter stainless steel bowl 22 RPM, double stainless steel knives 1725 RPM, bowl cover with safety interlock, push/pull on/off switch, one-piece burnished aluminum housing, 3" legs, 115v/60/1-ph, 1/2 HP

## Hobart Model 84186

1. The Hobart 84186-1 single-speed food processor measures 33<sup>3</sup>/<sub>4</sub> inches long by 22<sup>1</sup>/<sub>2</sub> inches wide by 17<sup>1</sup>/<sub>2</sub> inches tall and can be connected to a nearby socket using its 6-foot cord. Its body is constructed of burnished aluminum steel and is seamless, ensuring no food particles become trapped in its crevices. It rests on a series of 3-inch stainless steel legs, each of which is capped with a rubber foot to protect kitchen surfaces. In order to hold and cut 15 pounds of product, its bowl is made of stainless steel and measures 18 inches across.
2. the Hobart 84186-1 buffalo chopper food processor spins both its bowl and blades during operation; the blades spin at 1,725 RPM while the bowl spins at 20 RPM. All the blades are made of double cutlery grade stainless steel to ensure a sharpened edge. Its blades spin by interacting with its pull-action power switch, and its bowl cover protects users from contact with active blades.

## 84186 Food Cutter

### SPECIFIER STATEMENT

Specified unit will be an NSF rated Hobart food cutter with 1 HP motor and 15-pound capacity. Unit features a 18" removable stainless steel bowl, removable stainless steel knives with stainless steel knife comb and 3" stainless steel legs with rubber feet. Bowl rotates at 20 RPMs and knives rotate at 1725 RPM simultaneously to process ingredients. Correctional unit with tamper proof fasteners and locked on/off switch also available.

### MODEL

- ☐ **84186** Food cutter with 18" stainless steel bowl, double cutlery grade stainless steel knives with stainless steel knife comb and 3" stainless steel legs with rubber feet
- ☐ **84186C** Maximum security correctional package with tamper proof fasteners, lock on the on/off switch, and 115/60/1 with attachment hub only

### STANDARD FEATURES

- + 1 H.P. motor
- + 15-pound capacity
- + 18" stainless steel bowl
- + One-piece burnished aluminum housing
- + 1725 RPM knife rotation
- + Bowl cover interlock
- + 20 RPM bowl rotation
- + Double cutlery grade stainless steel knives
- + Pull/push on/off switch
- + 3" stainless steel legs with rubber feet
- + 6' flexible cord and plug

### ACCESSORIES

- ☐ Vegetable Slicer
- ☐ Meat Chopper Attachment

**84186 FOOD CUTTER**

#### ALUMINUM BODY

Single piece construction stops food particles from becoming trapped

#### 18" BOWL

Can hold up to 15 pounds of lettuce, onions, and other chopped produce

#### SPINNING BOWL

Spins in conjunction with blades to reduce jams and stoppage

#### STAINLESS STEEL BLADES

Durable construction to ensure a sharpened edge throughout use

#### 1-HP MOTOR

Allows knife to reach speeds of 1725 rotations per minute

#### 3" LEGS

Each is capped with a rubber foot for countertop placement

#### NO. 12 HUB

Allows for attaching optional vegetable slicer and meat chopper attachments

## Buffalo Chopper Uses

- Crumble cheese for melting
- Slice vegetables for side dishes
- Shred carrots and cabbage
- Grind bread into breadcrumbs
- Chop Nuts
- Mince beef and pork for sausage
